

PV MOTO 1k/2k/3k/4k/5kW Solar Power Systems

Fortune CP designs, manufactures, supplies and installs complete off-grid solar systems in Europe, Africa, Middle East & Asia, and America (North and South). Customers can buy standard kits up to 5KW or larger custom design systems (over 5KW to hundreds of KW). Since 2004 Fortune CP has supplied systems that power oil fields, schools, clinics, villages, houses, farms and other applications.

ITEM	DESCRIPTION	SOLAR SYSTEM SIZES				
		PV MOTO 1K	PV MOTO 2K	PV MOTO 3K	PV MOTO 4K	PV MOTO 5K
1	Solar panel array (total) - Fortune CP	1000Wp	2000Wp	3000Wp	4000Wp	5000Wp
2	Solar charge controller with LED panel	40A	80A	60A	80A	120A
3	Battery bank - sealed deep cycle	24V 400AH	24V 800AH	48V 600AH	48V 800AH	48V 1000AH
4	DC/AC Inverter - Optional output 120V/230V	1KW	2KW	3KW	4KW	5KW
5	DC disconnect	1	1	1	1	1
6	AC disconnect	1	1	1	1	1
7	Interconnection cables - for above items	Lot	Lot	Lot	Lot	Lot
8	Lighting arrestor	1	1	1	1	1

Optional: Combiners, Mounting frames, Battery cabinets, Replacement energy saver LED lights, Remote monitor.

APPLICATIONS

A PV Moto Solar System can be used on virtually any application where electricity is required. Systems can be deployed to power lights, mobile phones, radios, televisions, fridges, computers, water pumps and many other appliances.

Systems can be installed in remote areas without paying for expensive grid extension.

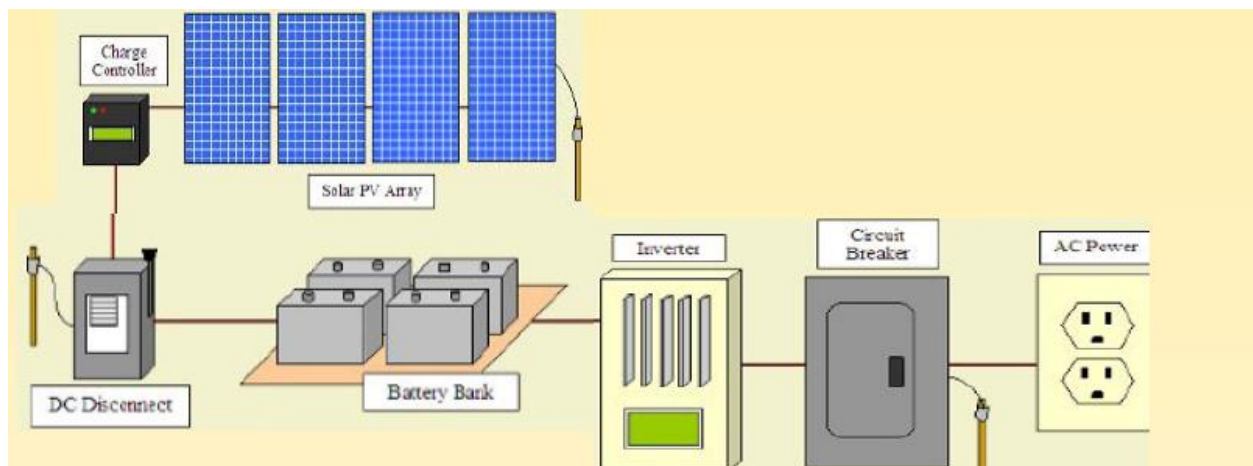

- Houses
- Offices, clinics, schools
- Commercial complexes
- Factories
- Street lights
- Water pumping, irrigation
- Rural electrification
- Military posts

- Telecom BTS sites
- Advertising billboards
- Cathodic protection—Oil & Gas
- Battery charging stations
- Farm houses
- Mining
- Powering DC fridges/freezers
- Remote cameras—CCTV

BENEFITS

- No electricity bills to be paid for 25 years
- Very good return on investment
- Energy independence— no bill increases
- Proven technology, environmentally friendly
- No wiring run from the grid, can be deployed anywhere even in remote places
- Minimal maintenance required
- System size can be scaled up anytime
