

PV MOTO 75/150/250/300 Solar Power Systems

Fortune CP designs, manufactures, supplies and installs complete off-grid solar systems in Europe, Africa, Middle East & Asia, and America (North and South). Customers can buy standard kits up to 5KW or larger custom design systems (over 5KW to hundreds of KW). Since 2004 Fortune CP has supplied systems that power oil fields, schools, clinics, villages, houses, farms and other applications.

A PV Moto Solar System can be used on virtually any application where electricity is required. Systems can be deployed in remote areas to power lights, mobile phones, radio, television, solar fridge, computer, water pump and many other appliances.
